Style & Beauty

Traditional to Classic, Craftsman to Contemporary. Codel offers a wide selection of styles and collections to best suit your own design.

Secure

MultiPoint lock hardware options or a heavy duty steel plate to reinforce the latch jamb against break-in force, offers more security and peace of mind.

Heavy Duty Steel Plate

Reinforces jamb against break-in force.

MultiPoint Lock Hardware

(Optional)

Increases resistance against break-in force.

Efficient

Codel doors provide more insulation value than wood doors and are more efficient than older, worn-out, drafty doors. Low-E and Argon is standard in our decorative glass doors.

Low-Emissivity (Low-E) and Argon is standard in our decorative glass for improved energy performance. Low-E is standard on all of our Commodity doors with glass.

Thermal Performance values established in accordance with ETC Laboratories (NFRC) Simulation Report

	R value	U value	SHGC value

Modern Contemporary

Featuring simple forms and geometric lines, contemporary houses are designed to fit today's lifestyles. The style encompasses a variety of distinctive elements, often featuring unconventional shapes and innovative details. Contemporary homes are often much warmer in design than modern versions. In general, contemporary homes try to bring the interior and exterior together.

Modern Farmhouse

A balanced blend of modern and rustic, the Modern Farmhouse style continues to be a rising trend. We paired some of our favorite door and glass options that intelligently mix modern and traditional.

Contemporary Northwest

Contemporary homes reflect the architecture and design of today. They represent smart design and curb appeal. We selected several doors that we believe represent the ethos of now and can be loved forever.

Craftsman

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic. We have recommended several door and glass options that give you the beautiful detailing a craftsman home requires.

Traditional

Traditional homes are comforting and classic. Their interiors are calm, orderly and predictable. Everything matches and is consistent. We suggest these doors for completing the look in a traditional home style and décor.

Decorative Options for Rustic Doors

Clavos, hinge straps and speakeasies add an authentic touch to your Rustic door.

Clavos

Codel offers clavos in 1-1/2" round or 1-1/2" square decorative black metal. Clavos and hinge straps are shipped loose so the customer can apply them on site in the design of their choice. (Clavos and hinge straps come installed on prefinished doors only.)

Straps & Clavos

1-1/2" Clavos and 18" hinge straps can be added to Rustic doors.

Essex Speakeasy

A Speakeasy adds a touch of old-world charm. Sea Spray glass door can open; when closed, Speakeasy seals tightly to prevent air infiltration. (Size: 10" wide x 12" high.)

(Exterior View)

(Interior View)

Lite Kit Frame

The galvanized frame is coated prior to powder coating for additional weather protection. It features a distinctive iron grille that enhances the old-world styling of our Rustic Door Collection.

STEEL DOORS

The wood-edge steel door series is a popular choice for new construction as well as remodeling projects.

The versatility and thermal advantages of a wood-edge door are combined with the durability of 24-gauge steel facings. Units are permanently held in place by the adhesion of the polyurethane core.

After assembly, doors are primed for superior corrosion resistance. Wood-edge steel doors are available with a *20-minute fire rating for all 6'8" doors up to 3'0" wide. (*Excludes doors w/lite kits.)

Thermal Performance values established in accordance with the International Energy Conservation Code (IECC) section 102.3

	R value	U value	SHGC value
Steel door unit without Glass	6.25	0.16	0.00
Steel door unit with 1/2 LowE Glass	4.55	0.22	0.16
Steel door unit with Full LowE Glass	3.57	0.28	0.28

Steel door unit with 3/4 Decorative Glass	4.17	0.24	0.20
Steel door unit with Full Decorative Glass	3.45	0.29	0.27

FAST-FRAME™

Introducing the Ultimate in Adjustable Steel Door Frames

FAST-FRAME'S advanced design adds a new dimension of flexibility and durability to Codel's steel entry door line. FAST-FRAME™ features closure kits with full 1" of adjustability to accommodate almost any variation in wall construction. This easy-to-install, user-friendly, kerfed steel door frame system is applicable to a full range of residential and commercial applications - wood or steel stud construction. FAST FRAME is engineered to meet the most stringent code requirements, including structural, impact and 90-minute fire ratings.

C690 door with Bright paint.

Adjustable T-Strike
1/4" of adjustment allows for ease of field installations for proper door closure

SINGLE-HINGED INSWING FIBERGLASS PATIO DOOR

The Single-Hinged Inswing Patio door provides the look of a double door, with the functionality of a single door. The “one-door-fixed/one-door-operable” configuration comes standard with a sliding screen, and is perfect for areas where interior space is limited. Available in a variety of sizes ranging from standard to retro-fit (EZ-Fit), the Single-Hinged Inswing Patio door is a great choice for new construction and remodel projects, alike.

(Outswing option also available with no sliding screen)

*Screen not available on outswings.

SF Smooth Fiberglass TF Textured Fiberglass

SF20F Double w/Right Opening and sidelites. Carbon Codel Coatings paint.

TRADITIONAL PATIO DOORS

The Traditional Patio Door is our standard double door but focused on your patio. We also added our maximum width options for each size, to allow you to dream. Available in a variety of sizes in both Smooth and Textured fiberglass, ranging from your standard double door, to adding a sidelite or non-active door as a sidelite. The Traditional Patio Door is a great choice for new construction and remodel projects, and to match your CODEL entry door.

WeatherGuard

COMPOSITE FRAME

SF20F door with Bright paint.

Codel's WeatherGuard Composite Frame System is an innovative alternative to traditional wood jambs. This poly-fiber doorframe system combines all the strength and convenience of wood with enhanced properties that make it moisture, rot and insect resistant. This unique formulation guarantees that the WeatherGuard frame will not absorb or wick moisture and resists warping, splintering and rotting.

The WeatherGuard product line is available in two varieties. White Cap is a smooth, semi-gloss white that can be painted or left unfinished to compliment the Codel Smooth Fiberglass door. Textured has an embossed grain that can be painted or stained to compliment the Codel Textured Fiberglass door. The advanced WeatherGuard system can be installed the same way as traditional wood jambs.

Exclusive to WeatherGuard is our patented "Seams-Rite" spline that enables the brickmould to be applied to the jamb without using nails. Besides eliminating nail holes, "Seams-Rite" ensures a continuous water barrier.

(Vinyl nailing flange is optional.)

Features & Benefits

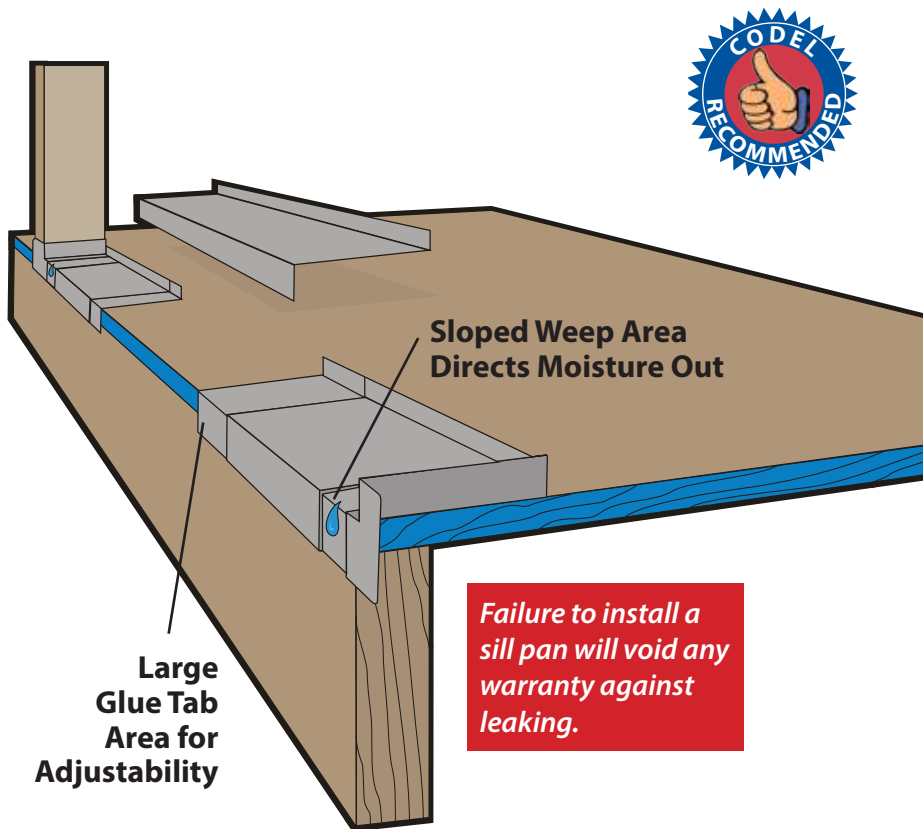

- Poly-fiber composite jamb system is an attractive, affordable, and low maintenance option to traditional wood
- Closed cellular structure is a unique formulation that ensures product will not warp, split or absorb moisture
- Greater screw holding power than wood
- Installs the same as traditional wood jambs
- Available in smooth semi-gloss white cap and stainable textured embossed
- Matching mullposts offering sidelite and transom capabilities
- Installation and finishing recommendation label applied to every frame
- Limited lifetime warranty

Adjustable Sill Pan

The Adjustable Sill Pan is a durable, PVC plastic unit that helps you protect your sill and entry door from water damage.

- Sloped weep areas located beneath the jamb-to-sill joint that direct moisture away from areas that could be damaged
- Durable weather-resistant material impervious to rust, corrosion, galvanic corrosion, electrolysis and corrosive coastal areas
- Depths to accommodate most door applications in either 2 x 4 or 2 x 6 construction
- Easy installation with the multiple piece design

**Available in
4-9/16" & 6-9/16"**

Jamb Options

Available sizes: 4-9/16", 5-1/4", 6-9/16", and 7-1/4".

White Cap Composite Jamb

Textured Tan Composite Jamb

Primed Finger Solid Wood Joint

Our domestic Ponderosa pine door frames are treated with blue acrylic end sealer to prevent wicking. Sealer is applied to bottom of jamb.

Weatherstrip Options

Brown weatherstrip is the CODEL standard, white is available upon request.

Inswing Water-Shed Sill

- Built-in weep system
- All composite for durability
- Special bumper sweep compensates for gaps; no adjustment needed
- Water-tight butyl end seal gasket

Inswing Adjustable Sill

- High performance Imperial seal technology
- All composite for durability
- Adjustable rail ensuring a tight fit
- Water-tight butyl end seal gasket

Inswing Fixed Sill

- Thermal efficient composite cap
- Durable economic design
- Water-tight butyl end seal gasket

Outswing Bumper Sill

- All-aluminum durability
- High performance outswing design
- Water-tight butyl end seal gasket

Outswing Oak Bumper Sill

- Stain grade hardwood interior
- High performance outswing design
- Water-tight butyl end seal gasket

LowPro Sill (Inswing or Outswing)

- ADA compliant
- Durable all-aluminum design
- Not recommended for high weather exposure

All Sills Available in:

Mill Finish

Bronze Finish

High Performance Commercial Grade Ball Bearing Hinges are **Standard** on Codel Fiberglass Doors

Strength and Durability:

Heavy-duty commercial strength hinge, that is much thicker than the standard residential hinge found on most residential fiberglass doors in the industry. This stronger hinge keeps your door true and fit in the opening, and reduces the risk of sagging.

Smooth Operation:

Our heavy-duty hinges come standard with ball bearings, giving your entry door ease of opening and years of quiet operation.

Appearance and Security:

With a thickness of 3.3mm, and $\frac{1}{4}$ radius, these hinges are not only aesthetically pleasing, but are more secure than the traditional residential hinge. These hinges are sealed on the top and bottom, so pin is not removable.

*Self-Closing Hinges **ARE NOT** Ball Bearing.

Non-Ferrous hinges help prevent rust and corrosion and are standard on all outswing fiberglass doors.

Steel Door Standard Hinge

Our steel doors come with a standard weight hinge, available in the same color choice options noted above.

MultiPoint Locking Systems

Codel Doors offers MultiPoint Locking Systems of the finest design, most precise machining and highest quality materials, providing homeowners with a secure locking system stronger than traditional deadbolt locks.

Screw Support

Prevents flexing or bending of the gear for life-time performance and smoother operation.

Mishandling Device

Prevents multiple locking points from accidentally firing and potentially damaging door trim. Fully field reversible.

Solid Stainless Steel Deadbolt

Highly corrosion resistant and stronger than traditional deadbolts.

Manual Tongue (Top & Bottom)

While offering security in the locked position, the manual tongue engages into the jamb or mull post and retracts when opened, giving a smooth, clean appearance.

Flush Bolts (Top & Bottom)

(Optional) MultiPoint is available for the inactive door. The flush-bolts operate by the handle on the inactive panel, sending the flush bolts simultaneously into the head and sill, offering smooth and easy operation and securing your entry door.

Paint Colors

Stain Colors

Fir Grain Stain Colors

Available on Fir-Grain Doors (See pages 26-29, & 42-43).

Flush Cherry Wood Stain Colors

Available on Flush Cherry Doors Only (See page 19).

Why doesn't the color on my product look exactly like it does in the catalog or website?

Due to the limitations of photography, there is no guarantee that your product's colors will have the same appearance as they do in print or online. We always recommend you see an actual sample before deciding on a color choice. Contact a Codel dealer to request a color chip sample.
